Data Source: Behavioral Risk Factor Surveillance System

% = Weighted percentage of respondents

LCL= Lower 95% confidence level of the weighted percentage

UCL= Upper 95% confidence level of the weighted percentage

DNR: Data are not shown if the unweighted sample size for the denominator was < 50 or the Confidence Interval half-width was > 10, as they do not meet standards for statistical reliability.

All percentages are weighted to be more representative of the population of Maine and to adjust for non-response.
